# Edison Freire

(347) 845-7635
edisonfreire14@gmail.com
edisonfreire.dev

## SKILLS

- Critical Thinking
- Problem Solving
- Experience with HTML, CSS and Javascript

## PROJECTS

### Personal Website (edisonfreire.dev)

Designed and developed a personal website using pure HTML and CSS to showcase relevant information and project links. Leveraged FontAwesome's library and toolkit in order to display related icons on my web page. Utilized CSS Grid and Flexbox to format the web page. Ensured responsiveness on varying display sizes through the usage of media queries.

### Wordle Clone (https://github.com/edisonfreire/wordle-clone)

Made a functional clone of the wordle game that was sold to New York Times for over 1 million dollars. Recreated the ui from scratch using plain HTML and CSS. Utilized an API to generate a new word and check if the word is valid.

## EXPERIENCE

### Barclays

JAN 2023 - FEB 2023

Winter internship through Breakthrough Tech where I worked in a group of 5 to create a table with search, filter and pagination functionalities that receives data from exception logs using Javascript, HTML, and Bootstrap.

## EDUCATION

### Hunter College, New York City

TBD

Current Student, completed introductory course in Python and C++. Currently taking coursework utilizing C++, data structures and algorithms.

Currently learning the latest web technologies to create fast and intuitive sites.
